

SAKSHI AGRAWAL

Data Analyst | Data Analyst Intern

Nashik, Maharashtra, India | agrawalsakshi139@gmail.com | [linkedin.com/in/sakshi-agrawal2409](https://www.linkedin.com/in/sakshi-agrawal2409) | github.com/SakshiA2409

PROFESSIONAL SUMMARY

Entry-level Data Analyst with hands-on experience in Excel, SQL, Python, and Power BI, applying data cleaning, analysis, KPI tracking, and visualization to real-world and project-based datasets. Experienced in transforming raw data into interactive dashboards, performance insights, and data-driven business findings across content analytics, retail billing, and business operations. Strong foundation in data preparation, exploratory analysis, SQL querying, and business-focused reporting, with a focus on turning data into clear and actionable insights. Seeking a Data Analyst / Junior Data Analyst role to contribute analytical and technical skills to real-world business problems.

TECHNICAL SKILLS

- **Data Analysis & Programming:** Excel, SQL, Python, Pandas, NumPy
- **Business Intelligence & Visualization:** Power BI, DAX, Tableau, Matplotlib, Dashboard Development
- **Databases & Data Management:** MySQL, Data Cleaning, Data Transformation, Data Querying, Relational Data Modeling
- **Analytical Techniques:** Exploratory Data Analysis (EDA), KPI Analysis, Trend Analysis, Business Insights, Data Reporting

PROJECTS

YouTube Content Intelligence — Content Performance Analysis | *Python, YouTube Data API, SQL, Power BI*

GitHub: github.com/SakshiA2409/youtube-content-performance-analysis

- Extracted and analyzed metadata for 1,053 videos from a large education channel using the YouTube Data API and Python to evaluate content performance and engagement trends
- Cleaned and transformed raw video data into a SQL-ready analytical dataset, standardizing publish dates and removing duplicate records for reliable analysis
- Developed an interactive Power BI dashboard featuring KPI cards for Total Videos, Views, Likes, Comments, and Average Views per Video, along with trend, top-performing video, and duration analysis
- Analyzed performance trends and found 1.32B cumulative views, with 2022 generating the highest average views per video (~2.9M), providing insights into content performance and publishing patterns

Electrical Solutions — Billing Analysis | *Python, Pandas, Excel*

GitHub: github.com/SakshiA2409/electrical-solutions-billing-analysis

- Cleaned and analyzed 554 real-world billing line items, standardizing 15+ inconsistent product-name variants and reconciling mixed quantity formats to improve data consistency
- Analyzed revenue distribution and identified a single bulk order contributing ~43% of monthly revenue; performed outlier analysis to distinguish exceptional transactions from underlying sales trends
- Created two client-facing Excel reports—a detailed analytical report and a simplified visual summary—to communicate findings effectively to technical and non-technical stakeholders
- Identified Sunday as the peak sales day and fans/lights as the top-selling products, providing insights to support inventory planning and staffing decisions

Restaurant Sales & Customer Behavior Analysis | *SQL, MySQL*

GitHub: github.com/SakshiA2409/restaurant-sales-customer-analysis-sql

- Designed and queried a 7-table relational database containing 36,000 orders to investigate 9 business questions related to customer behavior, demand, and revenue performance
- Applied multi-table JOINS, GROUP BY, aggregate functions, and filtering techniques to analyze customer spending, order frequency, and revenue across cities and restaurant categories
- Identified the top-performing city and restaurant category by revenue and analyzed peak ordering periods around 12 PM and 7–9 PM, generating insights for data-driven staffing and operational planning

EDUCATION

Bachelor of Computer Applications (BCA)

Savitribai Phule Pune University — Nashik, Maharashtra | Graduated May 2026
